KEY STRENGTHS:

- **4+ languages:** fluent reading/writing English, Spanish, Italian; fluent reading French, Catalan, Portuguese
- **9 years overseas**
- **Integrator** among diverse sectors, disciplines, roles, methodologies, cultures, and languages
- **16 years of professional experience in language services; academia/research; and private sector roles**
- **Strong writer and communicator** with experience writing, editing, publishing, translating, speaking, and presenting
- **Unmatched work ethic**, dedication, and enthusiasm for learning; eager for continued development, expansion, and growth
- **Original blend** of intellectual engagement, practical acumen, creativity, and social commitment
- **Adaptable, flexible**, and eager to engage new ideas, experiences and opportunities

EDUCATION

CARDIFF UNIVERSITY (2011 – 2016)

Ph.D. (Geography & Planning, Food Systems & Food Security research group)

Dissertation: "[Toward a Dignified Food Security?](#) Discourses of Dignity, Development and Culture in New York City and Bogotá" (2016).

UNIVERSITÀ DI BOLOGNA (2008-2010)

Master, History and Culture of Food, 30/30 con lode

Thesis: [Percepciones de alimentación y salud](#) entre inmigrantes latinos y catalanes en Barcelona (2010)

UNIVERSITY OF NOTRE DAME (1997-2001)

Bachelor of Science in Mechanical Engineering

(GPA 3.87/4.00, Summa Cum Laude, Academic All-America)

KEY PROFESSIONAL EXPERIENCE

ASHE LANGUAGE SERVICES: TRANSLATION & LANGUAGE CONSULTANCY (2008-present)

Writing, Editing, Translation, and Instruction: Services in English, Spanish, Italian, French, and Catalan

- Translate, review, comment, and edit academic, scientific, and professional texts for publication
- Deliver strategic proposal development and funding application advice
- Teach personalized English lessons and language mentor scholars and professionals of other mother tongues

REILLY CENTER FOR SCIENCE, TECHNOLOGY, AND VALUES (2017-2018)

University of Notre Dame

Visiting Post-Doctoral Scholar, Knowing Violence project

- Study and write a series of articles that interlocute radical critiques of technic modernity (e.g., Illich, Ellul); decolonial critique at the modernity/coloniality joinder (e.g., De Sousa Santos, Dussel, Grosfoguel, Escobar, Mignolo); and historical critiques of medical and scientific knowledge (e.g., Foucault).

REILLY CENTER FOR SCIENCE, TECHNOLOGY, AND VALUES (2016-2017)

University of Notre Dame

Undergraduate Programs Coordinator

- Coordinate the Science, Technology, and Values (STV) undergraduate minor and the Arts & Letters / Engineering Dual Degree Program; plan courses; advise students; produce extracurricular programs and events
- Lead project to assess, refine, and mission-orient the Center's curricular and extracurricular programming
- Support affiliate programs via guest lecturing and project leadership

CARDIFF UNIVERSITY / PUREFOOD Network (2011 – 2014)

Marie Curie Research Fellow

- Researched and published in themes related to food security and sustainability, urban food systems, and human rights
- Coordinated the Winter School in Agri-Food Studies (Barcelona), a two-week intensive program on food system justice
- Served as visiting scholar at the Centro Interdisciplinario de Estudios de Desarrollo (CIDER) (Bogotá, Colombia) and at the Università di Pisa (Italy), conducting research, collaborating with international colleagues, and delivering lectures

WORLD FOOD PROGRAMME (WFP) (May-July 2013)

Full-time volunteer with School Feeding Unit, WFP Headquarters (Rome)

- Led analytical and editorial dimensions of producing case study texts on the transition of school feeding programs to national ownership
- Supported colleagues with research, report and presentation preparation, and consultancy in school feeding projects

FUNDACIÓN ALÍCIA (“FOOD AND SCIENCE” FOUNDATION) (2009)

OBSERVATORIO DE ALIMENTACIÓN (“FOOD OBSERVATORY”) (2009-2010)

Researcher

- Applied mixed-methods investigative approach to optimize cooking methods for application in hospital diets
- Delivered technical support to and learned from leading international chefs, scientists, and subject matter experts
- Produced a novel analysis of questionnaire data on changing food consumption and health patterns in Spanish families
- Supported projects on school food, community and school gardens, and territorial product marketing

MOOG AIRCRAFT GROUP (2004-2007)

Associate Product Engineer

- Solved technical problems and designed solutions collaboratively with engineers, technicians, customers, and vendors to troubleshoot, manufacture, and deliver high-precision V-22 and Blackhawk helicopter components
- Wrote, edited, and delivered qualification, failure analysis, and engineering investigation reports and presentations
- Led effort to create and implement an innovative Web 2.0-based training program for incoming Moog engineers

UNIVERSITY OF NOTRE DAME OFFICE OF UNDERGRADUATE ADMISSIONS (2001-2003)

Admissions Counselor

- Coordinated a regional admissions territory: recruited students; evaluated applications; and made admissions decisions
- Delivered daily presentations representing the University to diverse stakeholder groups
- Managed website content; created and edited electronic newsletter for prospective applicants; developed print publications

HONORS & DISTINCTIONS

- European Union Marie Curie Fellow (PUREFOOD project, 2011-2014); Marie Curie Alumni Association Micro One-World Grant (2017);
- Rotary Ambassadorial Scholar (2008-2009)
- Academic All-America (2001)
- Tau Beta Pi (national engineering honor society); Pi Tau Sigma (national mechanical engineering honor society); Notre Dame Scholar
